

# Ergonomic chairs & stools

## Designed for clinical and laboratory use

### Elegant and comfortable

The Care line is a series of elegant and comfortable stools and saddleback chairs, specially designed for health care, laboratory and clinical use.

### Easy to adjust

Equipped with gas operated springs with infinite adjustment control.

Backrest-angle: 16° forward and 6° back.

Seat-angle: 12° forward and 1° back.

Height: foot released height adjustment ring.

### Soft and colorful upholstery

All stools and chairs are upholstered with cold foam and Ferrari Stamskin, a flexible and easy-to-clean imitation leather with an antimicrobial and stain resistant finish coating.

### Pinto Saddle stool

Designed with a thick layer of cold foam, a deep seat indentation and large thigh rests to give you great and comfortable support while seated.

### Jolly Saddle stool

Designed with a V-cut saddle-front and a cleaved center line that minimizes any annoying pressure.

## Pilates Air Seat

Designed with an air cushion the Pilates air seat has the same effect as the famous Pilates ball.

The air cushion in the seat constantly forces the body to “concentrate on sitting”, and thereby strengthens your back and lumbar muscles by keeping them active while you work.

You will not get the locking feeling of having sat in the same position for too long.

## Color of upholstery

All the stools and chairs are upholstered with Ferrari imitation leather with an antimicrobial and stain resistant finish coating. Manufactured to environmentally friendly standards ISO 14001 and according to the Öko-Tex Standard 100, as well as complying with current REACH requirements.

Choose between 8 different colors for the upholstery. To indicate the color, add the colorcode after the reference number. For example 79150 R .... to order a red Pinto saddle stool.

Ref	Product	Height	Height adjustment	Backrest
79150	Pinto Saddle stool	58-77 cm	Foot released	None
79151	Pinto Saddle chair	58-77 cm	Foot released	Upholstered backrest
79160	Jolly Saddle stool	58-77 cm	Foot released	None
79161	Jolly Saddle chair	58-77 cm	Foot released	Upholstered backrest
79170	Global Pilates Air Seat	52-71 cm	Hand released	None

## Wheels/caster types

Choose between 4 different types of casters.

- Easy Rolling (standard)
- Friction Brakes make the wheels go slow preventing the chair from “rolling away from you”
- Load Brakes: Brakes under load
- Unloaded Brakes: Brakes engage when you get up from the chair.

Ref	Product	Package
79190	Easy Rolling casters	1 set
79191	Friction Brake casters	1 set
79192	Load brake casters	1 set
79193	Unloaded Brake casters	1 set
